

Francesco Foiano

PRESENTATION

I am Francesco Foiano, born on 23/09/1997 in the Province of Lecce but currently residing in Pavia. Throughout my university journey, I have been intrigued by various fields such as Clinical Research, specifically in the role of Clinical Research Associate (CRA), Regulatory Affairs, and Quality Assurance, dreaming of being able to enter one of these worlds. However, this does not diminish my hunger and curiosity to discover other professional figures always related to my field of study. In the near future, I would also like to pursue a Master's degree to complement my hypothetical professional occupation

WHO I AM

Graduated in the scientific field, I am seeking work experience that will propel me into a path of professional growth. Always attentive to issues of active citizenship and sustainability in the pursuit of the common good, I am involved in a social promotion association. My civic activism led me, in the year 2014/15, to be part of the "Regional Parliament of the Youth of Puglia" with the gratification of a certificate of merit.

SKILLS

Extensive ability to relate and communicate, responding to specific requests with seriousness and professionalism at the service of the user. Broad ability to organize work autonomously with responsibility, commitment, and seriousness acquired through the various professional experiences listed above, while respecting the set objectives. Availability to work in situations of workload overload. Excellent skills in using the Microsoft Office package. Holder of a Category B driver's license. ICH Good Clinical Practice E6 (R2) certification.

LANGUAGES

Italian- Native language.
English- University B2 exam.
