

COURSE VENUE

Fondazione IRCCS Policlinico San Matteo
DEA, Aula 1 – 1° piano – Torre A
Strada privata Campeggi

Registration fee: 20 participants max allowed.
Total Amount € 610,00 (€ 500,00 + VAT 22%)
Registration deadline: January 12th, 2024

The participation includes: congress kit, participation to scientific sessions, coffee break, n. 2 light lunches, social dinner on 25th, accommodation, certificate of attendance.

Registration methods:

All participants are required to register using the "online form" on www.bquadro2.it and to pay via wire transfer.

Online instructions and registration procedure for new users:

- fill in the personal data and password fields; you will be registered to Bquadro2 website;
- select the course and a pre-confirmation e-mail will be sent automatically. Please follow the next steps to complete the registration.

Payment methods:

The wire transfer must be headed to:

Bquadro Congressi S.r.l.

Via F.lli Cuzio, 42 - 27100 Pavia

BANK: BPER BANCA

IBAN **IT81B0538711304000046066361**

BIC **BPMOIT22XXX**

In "Cause" box please write:

name, family name and "Iscrizione 24PPR05"

ALL WIRE TRANSFER CHARGES ARE ON THE PARTICIPANT.

Scientific Committee:

Marco Benazzo

Full Professor of Otorhinolaryngology,
Chairman of Otorhinolaryngology,
University of Pavia
Director SC of Otolaryngology,
IRCCS Policlinico San Matteo Foundation

II EDITION

Hands on ultrasound course in head & neck diseases

2024 January 25th and 26th

PAVIA

Fondazione IRCCS Policlinico San Matteo

Aims of the course

This course aims to introduce head and neck ultrasounds and ultrasound-guided intervention skills to specialists and registrars in Otolaryngology-Head and Neck Surgery. The number of US exams is increasing both in outpatient and surgical settings, and it can help head and neck surgeons to improve the diagnostic work-up and surgical results for patients with head and neck cancers. Moreover, the introduction of minimally invasive treatments (MIT), such as radiofrequency electrochemotherapy or the injection of sclerosant drugs in neck pathology, requires adequate US skills. The course is also relevant to other specialties which can benefit of the use of head and neck US, such as endocrinologists, pediatricians, radiologists, etc.

This practical course is designed with frontal lectures and interactive sessions; hands-on lab sessions will allow the participants to develop practical skills by directly training on volunteers or patients under faculty supervision. Furthermore, the participants will also practice ultrasound-guided interventions (including fine-needle aspiration biopsies, core needle biopsies, and minimally invasive treatments) on special-made fantoms.

Faculty

Fondazione IRCCS Policlinico San Matteo

Otolaryngology **Marco Benazzo**, **Giulia Bertino**, **Eugenia Maiorano**, **Simone Mauramati**, **Rebecca Gelli**, **Marta Minuti**, **Fabio Pedretti**, **Emanuele Robiolio**, **Maria Vittoria Veneroni**

Radiology **Lorenzo Preda**, **Francesca Berton**, **Chandra Bortolotto**, **Luisa Carone**, **Alessandro D'Onorio De Meo**, **Federica Lucev**, **Maria Gabriella Sala**

General Medicine - Interventional Ultrasound

Valentina Ravetta

ICS Maugeri IRCCS Spa SB

Internal Medicine and Endocrinology

Spyridon Chytiris,

Otolaryngology **Antonio Occhini**

IRCCS Fondazione C. Mondino

Radiology/Diagnostic Imaging

Fabrizio Calliada

E.O. Ospedali Galliera, Genova

Pathological anatomy and histology

Patrizia Morbini

Scuola Superiore Sant'Anna, Pisa

Clinical Nephrology **Mario Meola**

Programme

Practical sessions: Thyroid, parathyroid, salivary gland and neck US examination.

January 25th, 2024

Chairperson: F. Calliada, M. Benazzo
General overview

10.30-11.00 Participants registration

11.00-11.30

Integrating office-based US into the practical activity

M. Benazzo

11.30-11.50

Principles and physics of ultrasonography & instrument setting

F. Calliada

11.50-12.20

Fine needle and core biopsy techniques aspiration: tips and tricks

S. Chytiris, M.G. Sala

12.20-12.30

Cytology vs histology in US-guided sampling in neck nodules

P. Morbini

12.30-13.00

Clinical cases presentation

R. Gelli, M. Minuti, F. Pedretti, E. Robiolio, M.V. Veneroni

Light lunch

14.00-18.00 Afternoon practical session

Fondazione IRCCS Policlinico S. Matteo

Lab. practical session (scanner set-up and basic anatomy)

January 26th, 2024

Chairperson: L. Preda, G. Bertino

Thyroid

8.30-9.00

Clinical & US anatomy of thyroid and parathyroid

A. Occhini, C. Bortolotto

9.00-9.20

Challenges in US assessment of thyroid nodules (ATA, TI-RADS) **F. Calliada**

9.20-9.40

The cytological classification(s) of thyroid nodules

P. Morbini

9.40-10.00

Parathyroid US and US-guided lab tests in parathyroid pathology **M. Meola**

10.00-10.20

CT vs MRI: when & why? **L. Carone**

Salivary glands

10.20-10.40

Clinical & US anatomy of salivary glands disorders

E. Maiorano - F. Lucev

10.40-11.00

CT vs MRI: interpretation: when & why? **L. Preda**

11.00-11.20

The cytological classification of salivary gland tumors

P. Morbini

Neck

11.20-11.40

Clinical & US anatomy of neck masses

S. Mauramati, A. D'Onorio De Meo

11.40-12.00

CT vs MRI: interpretation: when & why?

F. Berton

12.00-12.30

Limpho-vascular masses: US applied to ECT

G. Bertino, V. Ravetta

12.30-13.00

Clinical cases presentation

R. Gelli, M. Minuti, F. Pedretti, E. Robiolio, M.V. Veneroni

Light lunch

14.00-18.00 Afternoon practical session

Fondazione IRCCS Policlinico S. Matteo
